Dear [Administrator's Name],

I wanted to introduce you to **Digilangua**, a platform that can significantly enhance world language instruction in our school. At its core, Digilangua focuses on the power of reading to support language acquisition and build essential skills across subjects.

### **Why Digilangua is Important:**

- **Promotes Reading as a Habit:** The platform encourages regular reading, which is essential for both language learning and overall academic success. With a collection of engaging stories in multiple languages (English, Spanish, French, German, and Italian), students can develop fluency and comprehension while enjoying reading.
- **Cross-Curricular Benefits:** Reading not only helps with language acquisition but also strengthens critical thinking, vocabulary, and writing skills across all subjects. Building strong reading habits supports overall academic growth.
- **Supports Individual Learning Paces:** Digilangua allows students to progress at their own pace, whether they are reading independently or listening to audiobooks, building confidence as they learn.

Additionally, Digilangua offers powerful features for teachers:

- **COPPA Compliant:** The platform meets all Children's Online Privacy Protection Act (COPPA) requirements, ensuring a safe environment for students.
- **Filtering by Language, Level, and Theme:** Teachers can easily filter the book library based on language, proficiency level, or theme, providing customized content for their classes.
- **Customizable Auto-graded Assessments:** Teachers can create multiple-choice questions for each book by chapter, which are automatically graded, allowing for efficient and accurate assessment of student comprehension.

With over 170 books covering a wide range of topics, Digilangua provides diverse and inclusive content that keeps students engaged while helping them acquire language skills in a meaningful way. Teachers can assign reading, monitor progress, and assess students directly through the platform, making it a valuable tool for both instruction and student growth.

**I can get a year subscription for a total price of \$199. This one account will include access for all my students!**

I highly encourage you to consider a trial of Digilangua to see how it can benefit our language program. I'd be happy to provide more details or arrange a demonstration. Thank you for your time and support in helping our students develop essential reading and language skills.

Sincerely,

[Your Name]
